PROFILE

Cowie Environmental Services Pty Ltd has demonstrated experience across all industry sectors from Local Government deliverables to the mining and resource sector. Our comprehensive experience with regulatory requirements, guidelines and management techniques at a Commonwealth, State/Territory and Local Government level allows us to deliver solutions for all environmental issues.

We provide clients with technical support at any stage of a project life aimed at identifying, evaluating and managing environmental risks to minimise impact and to avoid any unexpected challenges. Our environmental support is fit for purpose and tailored to meet the needs of the project.

Our key services include but are not limited to:

Secondments

- Short & long term project secondments

Planning

- Design review and input
- Planning & environmental due diligence assessment
- Review of environmental factors
- Environmental impact assessments

Approvals

- Development approvals
- EPBC referrals
- Environmental authorities
- Progressive rehabilitation and closure plans
- Financial assurance

Construction

- Environmental management plans (planning and/or construction)
- Erosion and sediment control plans
- Noise and vibration management
- Air quality management
- Acid sulfate soil management
- Weed management
- Standard operating procedures
- ISCA infrastructure sustainability assessments

Compliance

- Compliance auditing
- Environmental monitoring Programs
- Gap analysis

SCHEDULE OF RATES

Our team have demonstrated experience complimented with practical knowledge of managing environmental impacts having strong exposure to transport (road, rail & bridge), water infrastructure, residential, contaminated land, mining, and energy projects. Table 1 below includes our rates for the 2020/2021 financial year.

Table 1 Rates

Personnel	Rate (\$ excl. GST)
Brendan Cowie – Principal Environmental Scientist	\$165 / hour
Kenji Arulchelvam – Senior Environmental Scientist	\$150 / hour
Anila Cletus – Senior Environmental Engineer, Certified Professional in Erosion and Sediment Control	\$160 / hour
Andrew Debenham – Environmental Scientist	\$110 / hour
